

KU Automation

AI-Powered Owner's Engineering, Automation & Voice

Corporate Portfolio & Capabilities — July 2026

Who We Are

Kingsley Uzowulu

Founder & Principal Engineer

Chartered Engineer (CEng MIMechE) with 21+ years of hands-on experience in oil & gas, EPC projects, and manufacturing across the UK, Europe, and Middle East. Domain expert in piping, rotating equipment, process safety, and AI-powered engineering automation.

CEng MIMechE

21+ yrs O&G / EPC

AI / ML Specialist

Our Mission

Bridge cutting-edge AI with practical engineering workflows — making principal-level review and deep automation accessible to every project team.

Industries Served

- Oil & Gas (Upstream · Midstream · Downstream)
- EPC Contractors & Engineering Consultancies
- Chemical, Power Generation & Manufacturing

Geographic Coverage

UK • Europe • Middle East • Global Remote

"We bridge the gap between cutting-edge AI and practical engineering workflows."

The Problem We Solve

60%

of senior engineer time
spent on document admin

\$400–\$800

typical consultant cost
per deliverable review

4–6 hrs

to manually review
a single tech spec

Common Pain Points We Address

- ✗ Manual document review bottlenecks
- ✗ Inconsistent extraction from drawings
- ✗ Delayed RFQs — losing contracts
- ✗ Knowledge trapped in experts' heads
- ✗ Contractor deliverable review backlog
- ✗ Compliance documentation burden

Three Product Lines

End-to-end AI capabilities — from document review to live voice agents and custom pipelines.

KU Review Portal

AI Owner's Engineer for 22 deliverable types

LIVE at services.ku-automation.com

22 live reviewers · 5 disciplines · Results in 4 minutes ·
From \$19/review

→ services.ku-automation.com

KU Voice

AI voice agents that handle real inbound & outbound calls

LIVE demo: +1 (740) 265-2849

Sub-second latency · ElevenLabs natural voice · Arabic + English · CRM streaming

→ Call +1 (740) 265-2849

Bespoke AI Automation

Custom pipelines built to your workflows

P&ID extraction · Datasheet parsers · RFQ analysers · Chatbots

SharePoint · SAP · AVEVA / Hexagon · REST API · Fully tailored

22 LIVE REVIEWERS TOTAL

What Each Review Delivers

Sample Output — P&ID Review

 **11 CRITICAL**  **8 MAJOR**  **3 MINOR**

Recommendation D (Reject) — Return for revision

21-page PDF report + Multi-sheet Excel register

API cost: \$0.18 · Delivered in: 4 minutes

-
- ✓ Severity ratings: CRITICAL / MAJOR / MINOR / OBSERVATION
 - ✓ Code references: ASME, API, NACE, ACI, AISC, ISO, IEC, NFPA...
 - ✓ Explicit recommendation (A / B / C / D)
 - ✓ PDF review report — professionally formatted
 - ✓ Excel comment register — multi-sheet, sortable
 - ✓ Free 5-finding preview before you pay

Why This Matters

CRITICAL

Immediate safety or code violation — must be resolved before approval

MAJOR

Significant non-conformance — design or specification conflict

MINOR

Deviation noted — low risk but should be addressed

OBSERVATION

Advisory note — best-practice suggestion

Standards We Enforce

KU reviewers check against the standards your client expects — not a generic checklist.

Piping & Mechanical

ASME B31.3 · B31.1 · B16.5 · B16.9 · B16.11 · B16.20 · B16.34

API 6D · API 520/521/526 · API 600/602/607
API 610 · 617 · 618 · 619 · 670 · 671 · 682 · 692 · ISO
15848

Process & Safety

API RP 14C/14E · API 520/521 · API 752/753 · API RP 754

IEC 61508 / 61511 / 62443 · ISA 5.1 · ISA 18.2
HAZOP / LOPA / SIL methodology

Structural & Civil

AISC 360 · AISC 341 · ASCE 7 · ACI 318 · ACI 224R · ACI 360R

AWS D1.1 · EN 1992-1-1 · EN
1993-1-1 · IBC 2021 · UFC
3-340-02

Materials & Corrosion

NACE MR0175 / ISO 15156 · ASTM G88 · API 941

MSS-SP-44 / 58 / 69 / 75 / 97

Fire & Layout

NFPA 30 · NFPA 2 · NFPA 58

IP 19 / EI Model Code · OISD 116
· API 2218

KU Voice — AI That Answers Your Phone

AI voice agents that handle real inbound & outbound calls — indistinguishable from a trained human agent.

Live Demo Line — Call Now:

+1 (740) 265-2849 — Mythos Kouzina, Greek restaurant AI agent (Dubai)

Sub-second Latency

Near-instant voice response; no awkward pauses

Natural Voice

ElevenLabs 'Willa' — natural British female voice

Multilingual

Arabic + English; handles accents & interruptions

CRM Streaming

Calls stream live to your CRM or Google Sheets

Use Cases

Restaurant order-taking

Appointment booking

Lead qualification

After-hours reception

Front-desk assistant

Market Opportunity

The global call-centre outsourcing market exceeds \$500B. AI voice agents are the fastest-growing AI deployment category in 2026 — with zero marginal cost per additional call.

Custom AI Pipelines

Beyond the portal — fully custom AI pipelines designed around your existing workflows and systems.

P&ID Data Extraction

Extract equipment, valves, instruments & tags to structured Excel — automated pipeline.

70% time reduction

Datasheet Parser

Parse technical datasheets into structured database records with 85%+ accuracy gain.

85% accuracy gain

RFQ / Tender Analyser

AI scans tenders, identifies missed line items, flags scope gaps — 3× faster bid response.

3× faster response

Engineering Chatbot

RAG chatbot trained on your standards, past projects, and SOPs — available 24/7.

24/7 knowledge access

Knowledge Extraction

Turn 20 years of expert know-how into a queryable, searchable knowledge base.

Capture expert IP

Custom Integrations

Connect to SharePoint, SAP, AVEVA/Hexagon, or any REST API — bespoke connectors.

Seamless integration

What You Can See Tomorrow

No signup required for the preview — everything below is production-live right now.

services.ku-automation.com

Full marketplace — 22 reviewers browsable by discipline. Upload a P&ID and get a 5-finding free preview in 4 minutes.

Upload a Real Document

Bring any P&ID, isometric, or datasheet. We'll run a live review and walk through the PDF + Excel output together.

[+1 \(740\) 265-2849](tel:+17402652849)

Call the KU Voice demo live in the meeting — Mythos Kouzina Greek restaurant AI. Place a real order or ask about the menu.

Flexible Deployment Options

MOST POPULAR

Cloud SaaS

Fully managed on secure cloud

- ✓ No IT infrastructure required
- ✓ Automatic updates & maintenance
- ✓ Web browser access
- ✓ API integration available
- ✓ 99.9% uptime SLA

Private Cloud

Dedicated VPC instance in your region

- ✓ Dedicated resources
- ✓ Data stays in your region
- ✓ VPC integration
- ✓ Custom security policies
- ✓ SSO / SAML support

On-Premise

Full deployment in your data centre

- ✓ Complete data control
- ✓ Air-gapped option available
- ✓ Integrates with existing systems
- ✓ Custom hardware specs
- ✓ Perpetual licence option

Integrations: SharePoint · SAP · AVEVA / Hexagon · REST API · Custom connectors

Enterprise-Grade Security

Data Protection

- ✓ AES-256 encryption at rest; TLS 1.3 in transit
- ✓ Tenant-isolated databases — no data co-mingling
- ✓ Configurable no-retention — data deleted post-review
- ✓ Data residency: UK / EU / UAE — your choice
- ✓ Zero-data-retention AI endpoints — not used for training

✓ Isolated compute per tenant

Access Control

- ✓ SAML / OAuth 2.0 / Azure AD SSO
- ✓ Role-based permissions — granular control
- ✓ MFA required for all user accounts
- ✓ Full audit logs — complete activity trails
- ✓ IP allowlisting available
- ✓ Configurable session timeouts

Your drawings never leave secure infrastructure. AI providers are configured with zero-data-retention endpoints. You own all inputs and outputs.

UK GDPR

ISO 27001 (in progress)

SOC 2 Type II (in progress)

UAE PDPL

API/ISO/ASME Industry Standards

Support Tiers & SOP Governance

Standard

Included with all plans

- ✓ Email support (24 hr response)
- ✓ Documentation & knowledge base
- ✓ Quarterly software updates
- ✓ Bug fixes & security patches

Priority

Recommended for production

- ✓ 4-hour response time
- ✓ Phone & video call support
- ✓ Dedicated account manager
- ✓ Monthly check-in calls
- ✓ Priority feature requests

Enterprise

Mission-critical deployments

- ✓ 1-hour response (24/7)
- ✓ On-site support available
- ✓ Custom SLA agreements
- ✓ Dedicated engineering team
- ✓ Quarterly business reviews

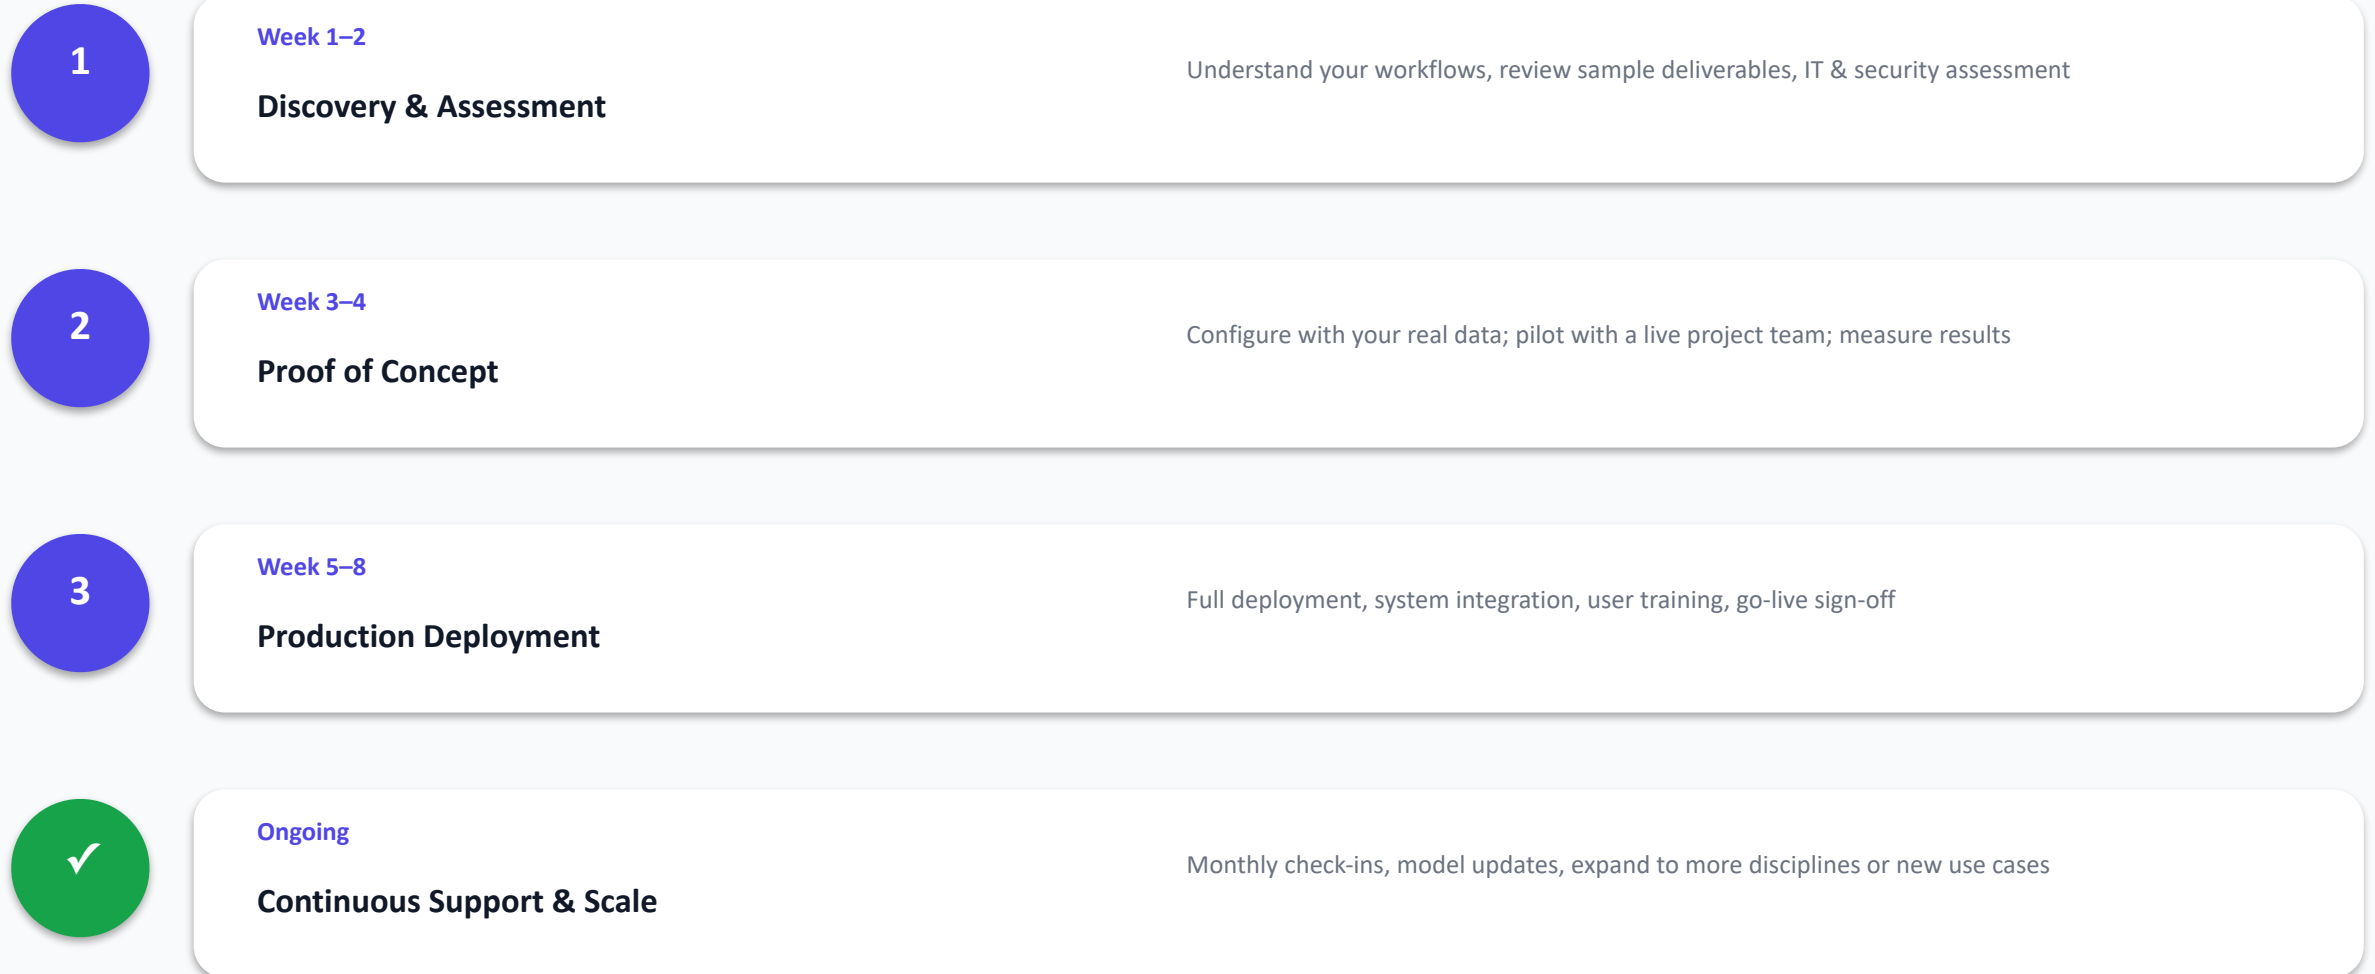

SOP Governance — Internal Quality Framework

8 documented SOPs (SOP-01 to SOP-08) governing: model selection & prompt versioning · data handling & retention · incident response & escalation · full audit trail · disclosure to end-users · hallucination detection checks · code-reference validation · change-control for reviewers.

How We Work Together

Proven Impact

70%

Doc processing
time reduction

85%

Data accuracy
gain

3×

Faster RFQ
response time

<4 wk

Typical ROI
payback period

Case A — P&ID Review (anonymised)

A sour-gas project (anonymised):

AI flagged NPSH margin 0.3 m below API 610 minimum, 3 missing NACE material specifications, and 4 relief-routing issues — in 4 minutes.

Consultant equivalent: 6 hours / ~\$400

Case B — Bulk Isometric Review

50 isometrics reviewed across one week:

Was: 25–50 engineer-hours (manual)

Is now: 4–5 hours with the portal — 90%+ time saving

95%+ of comments include ASME B31.3 code references. Standardised severity ratings across all 50 documents.

Pricing & Engagement

Pay-Per-Review

Self-serve · no commitment

From \$15

Quick review

\$39 Detailed

No subscription

- ✓ Free 5-finding preview
- ✓ All 22 disciplines
- ✓ Instant delivery
- ✓ Best for testing the platform

MOST POPULAR

Team Subscription

Most popular — for active teams

\$2,900/mo

- ✓ Unlimited reviews (5 users)
- ✓ Priority processing queue
- ✓ All 22 disciplines
- ✓ Dedicated account manager
- ✓ Monthly reporting

Enterprise

Dedicated tenant, custom scope

Custom

- ✓ Dedicated tenant & SSO
- ✓ On-prem or private cloud
- ✓ Custom disciplines
- ✓ Unlimited seats
- ✓ Dedicated SLAs + support

 Bespoke Projects: Custom AI automation pipelines from £5K pilot to £75K+ annual programmes. Tailored to your tech stack, data, and delivery schedule.

The BD Opportunity in the Middle East

Middle East EPC & AI Services Market: 40%+ YoY growth · ~\$2B+ addressable · Highly underpenetrated

What KU Has Today

- ✓ 22 productised, live AI reviewers
- ✓ KU Voice — live AI call agent
- ✓ Bespoke automation pipeline capability
- ✓ 38+ published engineering AI articles
- ✓ Working SaaS with real paying users
- ✓ Sole channel today: LinkedIn + inbound web

Distribution — Wide Open

ADNOC · Saudi Aramco · QatarEnergy

PDO · KOC · Sonatrach · TAQA · EGA

Major EPCs:

Petrofac · Worley · Wood · TechnipFMC

McDermott · L&T · JGC · Chiyoda

BD partnership = uncapped upside

🤝 KU has the product. The market is ready. The missing piece is feet on the ground.

Let's Build Something in the Gulf.
